

NEWS FLASH!

While this edition of *FNE* was at the printer operations began at the new terminal.

Ken Thomson writes: Today (Tue 28th April) saw "The Cloud Factory" aka West Fraser plant (formerly Norbord) receive its first train. 4H48 (topped and tailed 66s) arrived from Inverness with 6 "twins" bang on time just after midday.

Following a short delay the 12 containers were offloaded within 35 mins and the train later returned empty to Inverness as 4D48 at 14:13.

The first train into the terminal comes to rest at its final stopping point.

An Inverness-bound HST passes.

The reach stacker gets to work
